Subject: Final draft report for Asbestos
Attachments: SACC Asbestos Final Report 08162020.docx

Steve and Hayley,

Attached please find the final draft report for asbestos.

The report that I sent yesterday included a sentence on pg 73 that Ken Portier inserted to address Henry Anderson's comment that UTV gasket replacement and brake replacement should be evaluated as 2 separated COUs, as the tasks are done by 2 different workforce. However, in the draft risk evaluation, they are evaluated as 2 separate COUs. So his complaint has no merits, and the inserted sentence should be deleted.

Please discard the version I sent yesterday, and use the attached version as the final draft. Thanks.

Diana
